# SPECIAL ANNIVERSARY EDITION

## Celebrating 15 Years: Words from Fusion Factor's CEO

Fusion Factor Corporation is officially celebrating its 15th year anniversary. When we started in September 2005, the technology industry was booming. We enjoyed a strong wave of growth, innovation, and technological advancement. We started lined-up clients, thus opening a business was the right thing to do. Since I had my family's dedicated support, I was ready to jump in.

**To our clients:** I would like to thank our clients for believing in us and our ability to help them achieve their goals and vision via our backend IT support. They always challenged us to be better partners and always listened to our advice.

**To our team members:** To be in business for 15 years requires having incredible people in your organization. I am so grateful for the opportunity to work every day with a group of talented, passionate, and caring people. Your willingness to support each other in any and all circumstances is deeply admired. You are the best!

**To our partners:** I would also like to thank our global partners, which we collaborate with, to deliver incredible work that makes a positive, sustainable impact on our client businesses. You are fused with our team, and we are proud to work with you.

Thank you for the special 15 years! And here's to celebrating the next 15 together successfully.

**Bhavin Mehta,  
CEO of Fusion Factor**
